

MindPro®

A Revolutionary Lean Six Sigma Training, Testing and Certification System

Magus as authorized reseller of Six Sigma Management Institute, USA offers the most comprehensive Online Lean Six Sigma Training, Testing and Certification system available. This video based enterprise system provides a platform for digital and blended training and a Best Practice Coach for reference while on-the-job. All video instruction is provided by Dr. Mikel J. Harry, ensuring that you are receiving the best training at the lowest cost without instructor variation.

The MindPro® Knowledge Transfer System is comprised of five primary Delivery Platforms which can be combined in various configurations for each client and their different groups. These delivery platforms appear as navigational tabs within MindPro.

Best Practice Coach: Filtered database queries that provide results in a manner consistent with search engines. These results may include coaching packets, which serve as mini curriculums, or individual media. All results are displayed in their proper learning order.

Keyword Search: Word search capability that allows the MindPro database to be searched for known words. These results may include coaching packets, which serve as mini curriculums, or individual media. All results are displayed in their proper learning order.

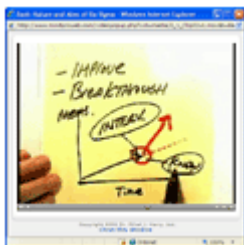

Resources: Includes a wide array of supplemental learning resources such as calculators, simulators, exercises, reference documents, and subject matter relative web links. All PDF and Excel file resources can be viewed, printed, downloaded and saved for future reference.

Body of Knowledge: This Lean Six Sigma Body of Knowledge is the master video curriculum for all MindPro Training Programs. It is often utilized by instructors or trainers to construct custom programs the client would deliver in a digital or blended training program.

Training Programs: Executable training programs that are client and group specific. These may be designed as self paced digital delivery, such as open enrollment, or scheduled and blended delivery depending on client needs.

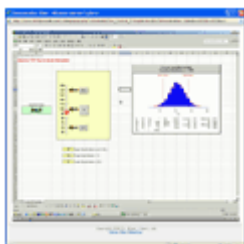

Instruction Delivery

All of the MindPro programs of study are delivered through video-based instruction. Depending upon the selected program it may include one or more of the following types of videos from MindPro's Lean Six Sigma Body of Knowledge.

Instruction Video

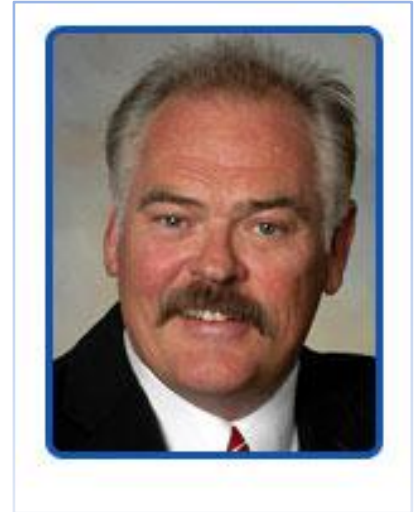

Dr. Harry provides lecture type knowledge, in short 5 minute videos, utilizing over-the-experts-shoulder style instruction enabling you to watch a concept unfold before your eyes.

Expansion Video

Builds upon what was learned in the instruction videos by using animations, simulations and examples to expand the content's scope and depth.

Empower people throughout your organization with the right learning and tools to transform challenges into opportunities.

Dr. Harry has been widely recognized and cited in many publications as the principal architect of Six Sigma and the world's leading authority within this field.

His book entitled Six Sigma: The Breakthrough Management Strategy Revolutionizing the World's Top Corporations has been on the best seller list of the Wall Street Journal, Business Week, and Amazon.com.

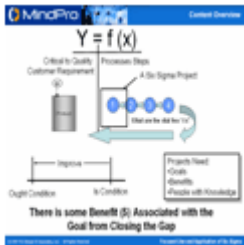

Application Video

Demonstrates how the central ideas can be put to practical use through Excel and Minitab. Dr. Harry takes you step by step how to execute projects utilizing these applications.

In addition to the above videos, MindPro includes many different types of media that enhance the overall learning experience and ensure the highest rates of knowledge transfer for both training and coaching.

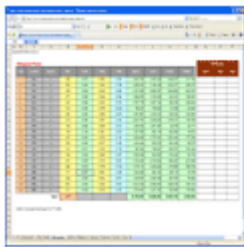

Summary Slides

For every instructional video, there exists a summary slide in PDF format that you can view, print, or download and save for future reference. These slides can be used as "class notes", or in the case of blended learning, a classroom presentation slide.

A class room without wall for a business without boundaries

Small Businesses: capitalizing on the low cost of digitally training a few key people utilizing the self paced online training

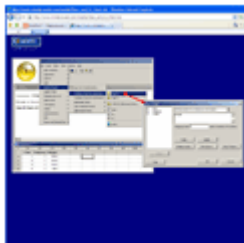

Mid Sized Companies: that train groups of people with the online system. This could include site branding and a custom designed training program, or even an in-house trainer utilizing a blended learning model

Excel Simulators and Calculators

43 visual aids to supplement your learning experience by running simulations or perform calculations of concepts taught during training. These tools can be used by students to gain deeper insight into the instructional videos or implemented by instructors to create short exercises.

Large Enterprises: that may want to purchase and license the system for perpetual and unlimited use on their internal network to economically train large numbers of people while reducing instructor variation

Excel Exercises

27 exercises and corresponding quizzes support one or more aspects of the related instructional content and can effectively support a self-paced or blended learning model.

Reference Documents

189 Tool, Concept and Methods Documents provided as PDF's. They are laid out in a consistent manner and can often answer many of the training related questions such as terminology, definitions and the order of procedures

Web Links

Easy access links to the MindPro Forums, MindPro Testing as well as additional web resources such as online glossaries, statistics handbooks, text books, reference books, manuals, tool selection guides and best practices.

MindPro's modularized curriculum design enables a standardized message to be communicated throughout the programs, thereby eliminating variation of instruction across groups of students or between roles.

All standard programs include the Resource Platform and Summary Slides that correspond to the instructional videos. Black Belt, Green Belt – Industrial and Green Belt – Commercial Programs include access to the Best Practice Coach and Keyword Search Platforms.

- SS-501 Six Sigma Black Belt

- SS-534 Digital Training Project

Testing & Certification

MindPro Evaluation Center is the most comprehensive online evaluation, testing and certification site available! Provided by Dr. Mikel J. Harry, the MindPro Evaluation Center delivers secure, modular examination and evaluation services. All of the MindPro exams and evaluation tools have been designed using state-of-the-art instructional technologies. This means you will experience a competency-based validation of your total learning experience.

For your selected program-of-study, your exam package consists of multiple tests, where each test corresponds to a program topic. Included in your purchase are THREE attempts at each topical exam. In the event any given topical exam score does not meet the minimum requirement, you will be able to retest that topic two times at no additional cost. However, if any given topical exam is failed three times, you will need to repurchase the program testing package. Testing is available for following courses.

- Black Belt Program
- Green Belt - Industrial
- Green Belt - Commercial
- Yellow Belt
- White Belt
- Process Leader
- Lean Sigma
- Prime Sigma
- Diagnostic Practices
- Control Practices
- Experimental Practices
